

# QUADCO

## BRUSHCO® 52" BRUSH CUTTER

- 52" CUTTING SWATH
- DESIGNED TO FIT A WIDE RANGE OF APPLICATIONS FROM LIGHT BRUSHING TO HEAVY FULL TREE MULCHING.
- PROVEN PRODUCTIVITY, DURABILITY AND COST EFFECTIVENESS IN MULTIPLE FORESTRY, PUBLIC WORKS, HYDRO UTILITY AND LAND CLEARING APPLICATIONS.
- CHOICE OF 2-KNIFE PADDLE OR MULCHING DISC WITH SQUARE ROTATABLE QUADCO TEETH TO FIT THE APPLICATION.
- ANVIL SYSTEM DESIGNED TO HOLD MATERIAL FOR TRUE CUTTING ACTION AND HIGHER PRODUCTIVITY

## FEATURES AND BENEFITS

- Cutting swath 52".
- Overall width 60". Height 40". Length 70".
- Weight 3,700 lbs with optional 90-degree tilt and mulching disc.
- Tree size capacity 6" when working off the side and unlimited when mulching from top of tree down using optional disc.
- Standard paddle has two 30-lb free swinging knives.
- Optional mulching disc has total of twenty teeth (two spirals of five teeth on bottom, eight teeth on periphery, and two on top).
- Teeth, common to high speed saw head technology are bolt-on, four-sided and field rotatable and replaceable.
- Tooth holders also bolt-on and field replaceable.
- Removable guards made in two pieces have handles for easy change from one side to the other when working adjacent to roads or houses.
- The change takes less than 5 minutes.
- The head can be operated right hand only, left hand only, or both sides at once when conditions permit.
- Optional 90-degree side tilt is ideal for ditches.
- Optional Rexroth variable displacement 160cc motor provides superior performance where required.
- Two skids (skis) and chains are standard equipment.
- Boom adapter made to fit any carrier is standard equipment. Quick mount is available as option.
- Ideal carrier size 20 ton+ excavator or purpose-built capable of 25-35 gpm (140 hp).
