MARKUSSON AUTOMATIC CHAIN SHARPENERS

GO AUTOMATIC

To meet the tough standards of forestry operations, Swedish-made Markusson automatic chain grinders offer logging contractors a quick and reliable grinding method to become more profitable and sustainable:

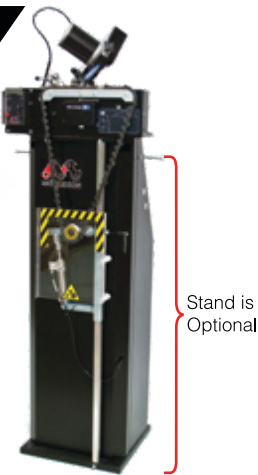

- Save time.
- Lose the human error.
- Gain more cubic meters.

Choose from our selection to find the model that fits your needs perfectly!

GRINDOMATIC V12

THE WORK HORSE

- Celebrated entry level robot grinder sharpens left & right cutter automatically.
- Two speeds with mechanical auto-stop.
- Presented as a 12V portable machine with stand and converter as options.
- Flexible and easy to adjust to depth gauge grind. Sharpens all chains from ¼" - .404".
- Grinding angle easy to adjust between 0 and 35°.

Stand is Optional

TRIPLEMATIC

THE 3in1 FAVORITE

- Best seller, all surface heavy grinder. Sharpens cutter, gullet, and raker, in one pass.
- Stepless speed with digital counter for auto-stop and with an adjustable chain vise.
- Comes with stand and air pressured adjustable chain tensioner.
- Easy to switch between chain pitches ¼" to .404".

COMBIMATIC

FOR BIG CHAINS & EXTREME GRINDING

- Specialized design to accommodate harvester chains .404" and ¾" chains.
- Fully automatic left and right cutter sharpener. Easy to adjust to lower the depth gauge.
- Stepless, pulsing speed for very heavy grinding, e.g. the ¾" pitch.
- Comes with robust stand and air pressured adjustable chain tensioner.

SENSOMATIC

THE WIZARD

- Has the combination of all featured Markusson functions + more.
- Patented micro sensor to detect left, right or skip sequence on chain.
- Comes with air cooling, exhaust funnel, hose and led light on adjustable base.
- Two speed depth gauge grinder and two wheel adjustable chain tensioner for short and long chains.

ACCESSORIES

CHAIN WEIGHT AND CONVERTER

Options for Grindomatic only. The 2 kg chain weight will help to keep the loop in tension. Converter to go from 12V to your domestic 120 V plug.

TELESCOPIC CHAIN EXTENSION KIT

Added to the stand when grinding very long chains up to 4000 mm.

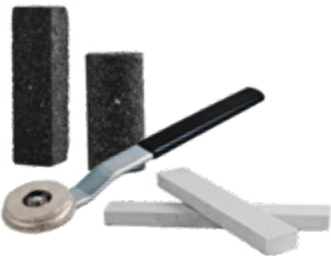

MAGNETIC ADJUSTABLE LAMP

Grinding is an art form and needs careful attention. This magnetic lamp can be placed on the machine where desired and has a long neck with directed light. Included with Sensomatic.

MARKUSSON CERAMIC GRINDING WHEELS

The blue ceramic disc is one of the best abrasive discs available on the market! With its high quality it will be performing great results for a long time before it needs to be replaced.

PROFILER TOOLS

Patented solution to profile wheels quickly, accurately and easily. Other dressing stones available as standard.

EXTRACTION KIT

Work in a clean environment and extract dirt and residue from chains and wheels. Dust collector not included.

AIR COOLING

All machines are prepared to add air cooling as option and speed up the grinding process. The air will go on / off only during the actual grind.

MARKUSSON CBN GRINDING WHEELS

The "CBN" wheel is diamond coated, has a longer lifecycle and needs no profiling thanks to its harder surface.
