

The QM45 is a heavy-duty mulcher designed for standard forestry and vegetation management applications, delivering reliable performance and consistent material processing. Positioned as the most compact model in the QM Series, the QM45 is optimized for applications where simplicity, ease of use, and efficient operation are prioritized. Built with a straightforward, direct-drive design, the QM45 provides consistent power transfer and reliable cutting performance with minimal complexity. Available with all-steel or carbide tooth options, the QM45 can be configured to match a wide range of applications and operating conditions. A built-in universal boom adapter ensures compatibility across multiple carriers, allowing quick adaptation and improved fleet efficiency.

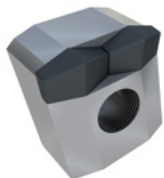

STANDARD CONFIGURATION

METRIC

IMPERIAL

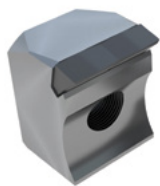

WEIGHTS & DIMS.	Weight (<i>Excluding Boom Adapter & Pins</i>)	1,266 kg	2,780 lbs
	Height	940 mm	37"
	Width	787 mm	31"
	Length	1,854 mm	73"
DRUM	Cutting Swath	1,143 mm	45"
	Number of Teeth	26	
	Speed	2,000 rpm	
HYD.	Motor Size	170 cc	
	Minimum Flow	170 lpm	45 gpm
	Pressure	260 bar	3,771 psi

QMX10420X
